## **Statement by Speaker Crisafulli Regarding the Revenue Estimating Conference**

**Tallahassee, Fla.**—Florida House Speaker Steve Crisafulli (R-Merritt Island) today released the following statement regarding estimates from the December General Revenue Estimating Conference.

“The modest upward forecast revisions reflect the continued solid growth of Florida’s economy. While it appears we will once again see a budget surplus in the upcoming fiscal year, it is important we don’t forget the principles that brought us here. We will continue our commitment to fiscal responsibility with every dollar as we prioritize funding initiatives and seek ways to continue tax relief for Florida’s families.”
